

# Population Health Overview

The healthcare industry is recognizing that social and non-medical factors play a much larger role than once envisioned

## Determinants of Population Health

### Leading Factors

**Physical / Social Environment**

(i.e. Living Conditions, Income Level, Community Demographics, Discrimination, Transportation, etc.)

**Lifestyle / Health Behaviors**

(i.e. Activity Level, Eating Habits, Drugs & Alcohol, Smoking, etc.)

**Medical Care**

(i.e. Quality of Care, appropriate Care, Access to Care, and Affordable Insurance)

**Genetics**

(i.e. Gender, Age, Predisposition, to disease / injury, etc.)

## Care Cycle

# HOME FOR LIFE Program

## HOME FOR LIFE<sup>SM</sup>

Home is wherever a senior chooses to live...

**HOME FOR LIFE** is National Church Residences' progressive plan for helping seniors remain healthy and happy wherever they call home — whether that is an apartment, house, or an independent setting in Senior Living or Affordable Housing.
